Protector the nearshore aquatic resources and provide flexible moorage options

**Walkway:**
- **Length:**
  - As needed to prevent float or vessel grounding
- **Width:**
  - Pier = 6’
  - Ramp = 4’

**Decking:**
- Grated, if wider than 4’
- Must provide 30% functional grating

**Floats:**
- Width = 8’
- Moorage and recreational floats must be <150 sq. ft.

New lifts, canopies, and covered moorage are not allowed.

**Options for Mitigation:**
- Vegetation along shore; OR
- Augment beach with gravel/sand and emergent vegetation; OR
- Replace hard armoring with soft armoring

**Don’t miss this!**
Proposed draft standards allow property owners to reach necessary moorage distance. An overall float square footage limitation is specified rather than precise length dimensions.

---

**New Docks**

Grated fixed pile pier (up to 6’ wide)
Grated ramp (up to 4’ wide)
Moorage float with 30% functional grating
