Notes From July 30th, 2007 Eastsound Subarea Plan Update Meeting

The meeting to discuss updating the Eastsound Subarea plan was a relatively unstructured discussion between County Staff and the audience.

County Staff sought to impart a sense of what had already be carried out insofar as actually revisions to the Subarea plan's text. Staff also sought further direction from the audience regarding the subjects of future discussion and the kind and quality of information they'd like to be presented with. Of particular interest were the distinctions between Private and Public roads, their respective ROW's, setbacks on either public and private roads, minimum lot size in village residential and there was an expressed desire to see the 'Nelson File' broken down into categories.
