I have read the [Vision Statement](#). I chose to visit here to enjoy what the islands are like now, and I am concerned that they may grow to lose many of these qualities, something that has happened all over the country to beautiful small rural communities. If that happens, why would I want to return, or tell my friends and family to come here? Keep it like it is today in 2017. We generally visit Orcas however are very familiar with the other islands and communities. IF you do not act now the fragile way of life and community will disappear. Please take the necessary steps now to maintain the county and community.

Best,

Bill Richards
