subject: Signed Comp Plan Petition

petition: We the undersigned request the county to adjust the current comprehensive plan update schedule. Please redesign the update schedule to allow sufficient time for substantive citizen input to ensure topics such as vision, density, carrying capacity, sustainability, resilience and compliance with GMA are thoroughly discussed and appropriate solutions explored, not just for the 20 year planning period but up to ultimate buildout. We ask this because the current comprehensive plan ignores our county's vision statement and leads to a resident and visitor population that far exceeds our resources. Our current course threatens our way of life, rural character, and our community.

comments: Let us not destroy by Greed or utter carelessness our truly unique island culture and environment. There are enough "once beautiful places" for us to be forewarned.

Please protect this Jewel of an Archipelago - it can never be restored or replaced. Our economic and lifestyle differences are our strength. Do not let these islands become just another soul-less Jet-set playground.
