**Subject:** comment for public planning commission meeting 3/16/2018

Dear Members of the SJC Planning Commission,

I would like to request the addition of a new stand-alone section to the Vision Statement dedicated to Agriculture. I grew up on a working farm on Lopez Island and many of my friends and family are still involved with ag in the San Juans (where I continue to vote while working in Canada). Agriculture should be highlighted as a priority in the Vision Statement in a unified and clear manner to reflect the priorities of islanders as expressed in planning stages for the vision statement.

Thank you,  
CedarBough Saeji

"Cultural production is always borrowed from the cultural sphere. It never originates in the commercial sphere. In this sense, cultural production relies on the raw resources of the cultural sphere in the same way industrial production relies on the raw resources of nature. Both forms of production are extractive. The culture, like the nature, can be mined to exhaustion" - Jeremy Rifkin (2000: 247).
