Erika, I will check on this. I also want to make you aware that Garry Horvitz w/Hart Crowser is working on a supplemental memo and a slope stability analysis in response to comments raised by Friends. GeoEngineers should review this information prior to completing their recommendation. I will confirm with Garry when he expects to finish his work.

Thanks, Joe

Hi Joe,

We've contracted with Geoengineers to provide a third party review of the geotechnical materials for this application. They noticed that there is a report referenced that is missing from the file.

We believe that the reference is actually a typo and should be "(G. Horvitz 2015)" because we don't have a report from Horvitz dated 2016, but do have one dated 2015. Could you verify that either the reference should be corrected or provide the referenced report, if it isn't a typo?

Thanks,
