NOTES:

Residential density is indicated by a number or letter

e.g. 5 = 1 unit per 5 acres
N = Natural = 1 unit per parcel of record
C = Conservancy = 1 unit per parcel of record unless publicly owned (See SJCC 18.30.020(D))
SPD = Washington Department of Natural Resources Trust Land Management Plan.

The Shoreline Management Act and the Master Program apply to all shorelines 200 feet landward of the ordinary high water mark (OHWM) and everything seaward of that line.

Where a single designation is shown, this applies landward of the OHWM, and the aquatic designation applies seaward of the OHWM. Where a dual designation is shown (e.g. RR/C, C/N), the first designation applies landward of the OHWM, the second from the OHWM to the line of extreme low tide (ELT), and the Aquatic designation applies seaward of the ELT line.

Comprehensive plan land use designations in existence on the effective date of the Shoreline Master Program, 30th October, 2017, continue to apply.

All small islands, rocks, and reefs whose designations are not shown on this map are designated Conservancy if in private ownership, or Natural if they are public ownership.

Shoreline densities are the same as upland designations. There are no separate shoreline densities.
