Subject: **Vision Statement Comments**

Dear County Councilors,

Please consider integrating my comments, below, into our San Juan County Vision Statement.

Thank-you,
Janet Alderton
Orcas Island
510-520-1073

Basic Human Needs: Because our water resources are impacted by hotter and drier summers that co-inside with increasing tourism and seasonal home use, the quantification and monitoring of our water resources are essential to ensure long-term water availability.

Please add both mental health and victim services to elder and childcare under **Basic Human Needs**.

Housing: Our homes are constructed to be energy efficient and have low environmental impacts.

Natural Environment: As careful stewards of these islands and our marine waters, we conserve resources...

Please add a section for **Forests:** We ensure that forest lands are preserved because of the integral role that forests play in maintaining our soil, filtering and storing water, sequestering carbon, and providing scenic beauty.

Thank-you for including climate change as a section in the vision statement. Please include climate change in all the elements of the Comprehensive Plan.

Please plan for peak visitor needs and address their impacts to our community as you proceed with this planning effort.
