

Appendix A – Acknowledgements

The authors thank the Terrestrial Managers Group for the opportunity to study visitor issues on the San Juan Islands, as well as assistance with several aspects of the study, including: inviting participants and organizing workshops; providing background information; developing contacts with agencies, NGOs, and people with local expertise; providing staff and volunteers to help with the study; assisting with our fieldwork; and reviewing surveys, protocols, presentations and reports. People who provided considerable assistance with the project are listed below (once each), organized by their major study element or agency/organization.

Terrestrial Managers Group Steering Committee

In particular, we would like to thank several members of the TMG steering committee that helped shepherd the project from funding through completion.

Bill McGown, volunteer

Tina O'Brien, Spencer Spit State Park

Tom Snowden, Odlin County Park

Washington State Ferries staff

Ray Deardorf, Rider statistics lead

Teri Haffie, San Juan Islands terminal manager

John Vezina, Government Affairs Liaison

Other

Diana MacDonald, Operations, Washington State Parks

Darleen Muhly, Use information specialist, Washington State Parks

Pam Zeisler, NPS visitor use statistics program

San Juan Island visitors and residents

Finally we thank over 2,000 San Juan Islands visitors and residents who took time away from their trips or leisure to complete on-site or ferry surveys. As their survey comments attest, many people have great passion for the islands and strong opinions about how it should be managed. We hope this report conveys some of that passion as well as fair characterizations of their opinions.

Of course, inclusion in the preceding lists does not imply endorsement of information or conclusions in the report. These people provided very helpful information and diverse opinions that we have attempted to understand and represent, but we are responsible for how the study was conducted and presented.

Doug Whittaker, Bo Shelby, and Dan Shelby
