SJC Department of Community Development

The Community Treasures facility on Roche Harbor Road has been a valuable community resource for some years now, providing for the active recycling of all manner of goods and materials at very modest pricing.

It not only is highly used by the local community it provides gainful employment to several individuals. This past Sunday I counted a full parking lot with 13 vehicles in it and, as I and another vehicle were leaving, there were two other vehicles just arriving.

It would be most proper and fitting that the property they are presently sited on be assigned a proper zoning so that they can continue to provide their services to the community, even if that zoning consisted of a variance to existing zoning applicable specifically to their specific activities.

Please take whatever steps are necessary to protect and maintain this facility as and where it is now located.

John Monson
