I am surprise that your existing recycle program is so outdated. China and southeast Asia are not taking any more commingled solid waste and I have heard rumors that this type of waste is now dumped with the rest of the trash in landfills. Lopez has the only sortable bins in the county is truly sad. I take our sorted recycle off island.

SJC needs to establish sortable bins at all transfer stations and begin a public education program to encourage their use. This should not be a planned event, but done ASAP.
