“Complete Streets” are antithetical to our County’s rural character. While a trendy planning topic, they would wreak havoc with our island. PLEASE don’t do this. BTW, we don’t HAVE public transit nor can we reasonably be expected to develop it in our rural county.

I’m not sure how you justify using the ROADS fund for “non-motorized” projects.

I know of no one on Orcas who wants an international PoE or sees any need to increase traffic from the Gulf Islands. Councilmember Hughes has reported that he sought deletion of the former goal.

What greenhouse gas reduction strategies are you referring to? And what carbon tax do you have in mind? Are you proposing one? While I can see using some of the lodging tax to reduce visitor impact, what types of projects?

Do NOT delete the maintenance of rural character from the plan. And reconsider Complete Streets, which is antithetical to rural character. The County has wreaked havoc with much of our rural roads. It needs to stop.

I just noticed that you undertake to change the perfectly appropriate transportation vision statement. That makes no sense. We are not Everett or even Friday Harbor. Please leave it as is.

Margaret M. Manning
