Comments on the draft Transportation Element

1. The last thing this County needs is another junior taxing district. 6.2.B.8
2. The idea that the use of single occupant autos can be materially reduced is unsupportable. We are a RURAL county. People live long distances from services. They have their own schedules and autos. You cannot and should expect to change that.
3. Please don't adopt anything that accepts what the old Port Commission did in the way of a master plan. The community opposed it and was ignored. It is inconsistent with the County's vision statement and rural character.
