To the San Juan County Planning Commission :

I am writing today to express my full support and gratitude for the proposed marijuana production and processing regulations. As written and if codified, our county will have taken some of the most basic and important safeguards to ensure that this new industry does not overtake agricultural food production in our small communities, as well as protect our environment from chemicals, over water-usage and odors.

Thank you all for your hard work and for remaining diligent on this issue. It is truly appreciated.
