Vacation Rental homes on San Juan Island are an integral industry and provide employment to year-round islanders. Tourism to the San Juan Island generates revenue locally that supports so many people that dream of living here full time. My name is Jesse Berube, I have lived on San Juan Island for 20 years and I have been a property manager with San Juan Property Management, a vacation rental management company in Friday Harbor for 2 years. Being employed with this company has provided a firm sense of job security and a positive mark on the local economy. If the moratorium gets extended past 6 months, I am extremely concerned it would threaten my way of life here as year round resident on my island home.

I oppose the vacation rental permit moratorium and I oppose the extension of the moratorium past the current 6 month time frame.
