Hi Lynda,  
I hope you're well and able to enjoy some of the beautiful weather we are having!

I am writing today to urge the Planning Commission to add a Truth in Planning component to the Comp Plan. I remember when I was on the Planning Commission that I had asked for a baseline of the islands' carrying capacity, especially water. I am concerned about how many people San Juan County can truly hold -- without trucking in water or needing desalinization machines, etc. If we are aiming to be sustainable, which is part of the Vision, then I don't believe those methods count.

Many thanks to the Commissioners for doing the hard work that they are doing, and to you and the County staff for your hard work too!

Warmly,  
Georgette
