I am a Lopez resident. I would like to see the VR permits capped at 75% of current numbers and make sure that all VR's issued are in compliance with regulations. I have seen many statistics that indicate a large number are NOT in compliance and it doesn't make sense to issue more if the ones that are out there aren't following the rules. Very concerned about the carrying capacity of the island with our limited resources and visitors who often aren't aware of water, sewer, garbage, wildlife, etc. issues.
