Subject: Egg Lake Quarry (ELQ) illegal weekend operation
Attachments: Aug 7 ELQ video timestamp.jpg; July 18 ELQ video timestamp.jpg; Video ELQ operating Sun July 18.MOV

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Lynda: I was told that you are the contact to whom we should send evidence of code violations as it pertains to the **illegal operation of mining operations in San Juan County**. Attached are videos and screenshots proving **Egg Lake Quarry (ELQ)** is operating during the weekend--a county code violation.. Unfortunately, the video of today's operation exceeds the gmail file size for emails. Please let me know if you need me to come into the county office to share in person.

Dear SJC Planning Commission: you are on copy based on the July 6 notice sent to the neighbors of ELQ offering us to send comments on the staff recommendation to designate Egg Lake Quarry the **privilege** of MRLO status. The terms of such designation (See Attachment A of Adam proposal) require the mining operation to adhere to local, state, and federal laws. Weekend operation of the ELQ mining (rock quarry) operation is a SJC code violation and a just reason to **remove ELQ from the staff MRLO recommendation** dated July 2.

Thank you for your assistance to keep our county code enforced and preempt the MRLO designation of non-compliant applicants.
