Subject: Docket Request 21-0003

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I urge the County Council to put Docket 21-0003 on the work plan for DCD as part of the process for completing the Comprehensive Plan update. Without knowing what the current legal buildout numbers are, we cannot move forward with effective planning. I have been a resident of this county since 1985, and a landowner since the mid 90's. I am vitally interested in this data. As a collection of islands, we have limited capacity for growth. Without knowing what our current maximum population numbers would be at full build out, we are shooting in the dark when it comes to growth. Good government requires that this study be completed. All of our planning must be constrained by available water, how we can deal with our waste stream, the impact of our sewer systems, the impact on our infrastructure, as well as our vision for the nature and size of community we wish to live in.

Thank you,
Tracy Oniya
