To: SJC planning commission,

The official projection of the islands' population and tourism growth is the destruction of this county. Please support docket request 21-0003.

Please support the docket request 21-0003 as your fellow Planning Commission members did in 2000 and again in 2018. The vision statement says that these islands are to stay rural and protective of beauty, quiet and the natural environment. We are already above the residential and tourists capacity to fit the vision statement. In addition to limited water, our quality of life depends on limited roads, clean air and rural quiet lifestyle. We do not wish to expand any more. This problem cannot be ignored. Please support the docket request 21-0003.

Thank you, Naomi
