Dear County Councilmembers,

We respectfully ask you to consider our opinions on the following:

Build-out Analysis is critically important.

The Build-out Analysis should be part of the Comprehensive Plan's Introduction because all Elements of the Comprehensive Plan are included in the Build-out Analysis.

We need data on water, sewer, stormwater, garbage, land, road, ferry, airport, housing, education, medical, fire, etc. utilization in order to wisely plan for growth.

Tree Protection is important, not only for critical areas and shorelines, but everywhere in San Juan County when land is being developed. We support adding a new section to the Development Standards for Tree Protection throughout the county.

Respectfully yours,

John Pierre & Annette van Dongen
