Dear Councilmembers and Ms. Cassam,

The determination of the degree to which our islands can be developed is of utmost importance. We cannot blindly continue to build in the islands without knowing firmly what capacity of essential services can be provided.

I plead with the Planning Dept. and the CDC to take Symon's analysis very seriously and that further data be compiled prior to the Comp Plan being adopted. I further urge you to make your findings PUBLIC.

Please, members of the Council, remember that this will impact all of us. Future generations will examine our rush to approve further development without in-depth analysis and wonder "WHAT WERE THEY THINKING??"

Thank you for your consideration.

Eleanor Hoague
