Attachment: Shoreline Inventory Report 3

On map 12B Flood Plains and Wetland, it shows a portion of the southeast lot as Zone A 1 % chance of flooding. This area is High Bank so I don't understand this designation. SEE PHOTO F

On map 17 B there is a designation of erosion-prone soils. Most of our property is wooded and has a lot of salal as a ground cover so I do not understand this designation.

Our property was vacant when we started development in 1999. When getting ready to build, we removed only a minimum of trees and banked ferns and salal for replanting. We wanted to keep it as natural as possible.

The main house which is near the shoreline was completed in March of 20003. It complied with all of the regulation at that time.
