DEVELOPMENT & PLANNING

Dear Mr. Maycock,

My mother, Rosa Montgomery, owns a waterfront lot in Eastsound, on Orcas Island. It is a piece of property that has been in our family for many years (my grandparents came to Orcas in 1916).

Over the weekend I found out, in a round-about-way, that we need to submit a report on that property, DUE APRIL 30th (today).

I am my mother's Power of Attorney, as she no longer is able to do paperwork, etc., without assistance. As I had no prior knowledge of this requirement, we cannot comply with all of the requests (pictures, measurements, etc.) that the Shoreline Inventory Report wants specified. Therefore, many of your questions are unanswered.

The lot is 100' (high bank waterfront) x200'. The lot is still unimproved; there are no structures on it.

Regarding the rest of the information on the form, I have no idea as to many of the questions. I do know that our Reach # is 57, and it is in the Eastsound Management Area.

If you need further information please contact me at myers9@hotmail.com, or at 4249 NE "D Avenue Neotsu, Oregon, 97364; or by calling 541-992-4564.

Thank you,

Robyn Myers

ps - as the lot is undeveloped, it does not have an actual address, it is across the road from 137 Montgomery Lane, Eastsound.

The parcel # is 48962.
