DEVELOPMENT & PLANNING

Dear Mr. Maycock,
I am writing to document the current level of shoreline utilization and structural elements on my property at 721 Golf Course Road, TPN 352650015.

Figure 1 encompasses our entire property shoreline and illustrates all current elements.

During the construction of our home, we submitted a Stormwater Drainage Plan, which was approved on June 23, 2006, and called for a series of tight lines to gather the stormwater and route it to an outlet on the shoreline, which terminates on rock, as illustrated in Figure 2.

Please include this detailed information in the SJC Shoreline Characterization and Inventory Report update.

Thank you,
Michael Griffin
