Date: 2/8/2012

Attn Shireen Hall

TO: San Juan County Council
San Juan Counting Planning Commission
Community Development and Planning Department

Since just finding out that the county council plans to re-write the SJC Shoreline Master Program, and that we should review the county's "characterization" of our waterfront property before March 15th 2012 to make sure it is correct and since we will be away from our home until after that date we are therefore enclosing a brief history and description of the use of our property.

Thank you

Joseph and Charlene Pignataro

Property description: See attached document

General History:

Our home and out buildings has been in continual growth and repair over approximately 70 years. We purchased our home 1992. We finished the in progress additions and decking around the house. We also repaired the existing dock. We planted and irrigated lawns and many beds of trees, shrubs, flowers, and vegetables around the property. We keep them highly maintained. We spend time at our home all year round and share it with friends from all over the U.S. , along with the many neighbors that we are friends of and the many friends we have made on the island. Our family and extended family loves to visit and enjoy our home. Charlene has voted in Island County for approximately 18 years. We have hookup to Roche Harbor water.

Current Structures:

Main House with many covered and uncovered decks. Garage hat includes a shop and guest house. The garage/shop/and guest house is going to be repaired soon. There is covered wood storage and several holding tanks for water storage. We also have a pump house , a dock on Mosquito Pass with an additional movable dock and a boat ramp/ launch. We maintain a wood bulkhead . We also have a viewing bench on the lawn looking out to the water. We have several fences along the property.

Shoreline Uses:

Gathering of oysters and crab. Beachcombing, Viewing of the water, the boat traffic.
